HOW TO USE OUR COLORS

Think of our colors like a movie. Each color has a specific part and role to play and that role determines their screen presence. This ensures continuity, harmony and a pleasant viewing experience.

Below is a very basic outline of what this means and could look like when creating materials for Roots & Wings.

EXAMPLE OF A PLAYFUL CAST

PRIMARY → MAIN CHARACTER
Use for main elements, display headings and to tie design together.

SECONDARY → SUPPORTING CAST
Use to add variety and depth. Can be used often throughout for emphasis and subheaders. Shouldn't outshine the primary color.

ACCENT → GUEST STAR
Use for highlights, calls to action, occasional subheaders and important details. Use intentionally and sparingly.

BACKGROUND → SCENERY/SET
The warm cream should be used for the of most materials in order to keep the focus on the logo. The weight is equal to the primary color in suggested combinations for this reason.
